1 Identification of the substance/mixture and	of the company/undertaking		
· Product identifier			
· Trade name: CLEARFIL MAJESTY ES-2 ; Classic :	and Premium		
• Article number: US178-CP • Application of the substance / the preparation Dental filling material			
• Manufacturer:			
Kuraray Noritake Dental Inc. 1621 Sakazu, Kurashiki, Okayama 710-0801,			
Japan			
Contact information: Kurana America Inc.			
Kuraray America, Inc. 33 Maiden Lane, 6th Floor, New York,			
NY 10038 U.S.A.			
Tel: 800-879-1676			
Fax: 888-700-5200 Website: www.kuraraydental.com			
2 Composition/information on ingredients			
· Chemical characterization: Single Component			
• Description: Mixture of substances listed below with no	onhazardous additions.		
Dangerous components:			
1565-94-2 bisphenol A diglycidylmethacrylate	() H315; H319	2.5-10%	
• Other ingredients: Silanated barium glass filler			
Pre-polymerized organic filler			
Hydrophobic aromatic dimethacrylate			
Hydrophobic aliphatic dimethacrylate dl-Camphorquinone			
Accelerators			
Initiators			
Pigments			
3 Hazards identification			
· Classification of the substance or mixture			
GHS07			
\checkmark			
H315 Causes skin irritation.			
H319 Causes serious eye irritation.			
· Label elements			
· GHS label elements			
The product is classified and labelled according to the G • Hazard pictograms GHS07	Iobally Harmonized System (GHS).		
· Signal word Warning			
· Hazard statements			
H315 Causes skin irritation. H319 Causes serious eye irritation.			
Precautionary statements			
P280 Wear protective gloves/protective clo	thing/eve protection/face protection		

P280 wear protective groves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

4 First aid measures

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Generally the product does not irritate the skin.
- \cdot After eye contact: Rinse opened eye for several minutes under running water.
- \cdot After swallowing: If symptoms persist consult doctor.

5 Firefighting measures

- · Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Special hazards arising from the substance or mixture No further relevant information available.
- · Protective equipment: No special measures required.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Not required.
- \cdot Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- \cdot Methods and material for containment and cleaning up: \mbox{Pick} up mechanically.
- \cdot Reference to other sections
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

7 Handling and storage

- · Handling:
- · Precautions for safe handling No special precautions are necessary if used correctly.
- Information about protection against explosions and fires: No special measures required.
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location (2-25°C).
- Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: None.
- \cdot Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection · Additional information about design of technical systems: No further data; see item 7. · Components with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace. • Additional information: The lists that were valid during the creation were used as basis. · Personal protective equipment: · General protective and hygienic measures: Wash hands before breaks and at the end of work. · Breathing equipment: Not required. · Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. · Eye protection: Not required. **9** Physical and chemical properties · General Information · Appearance: Form: Pasty Color: Different according to coloring · Odor: Odorless · Odour threshold: Not determined. · pH-value: Not applicable · Change in condition Melting point/Melting range: Undetermined. **Boiling point/Boiling range:** Undetermined. · Flash point: Not applicable. Not applicable · Ignition temperature: · Danger of explosion: Product does not present an explosion hazard. · Explosion limits: Lower: Not applicable Not applicable **Upper:** · Vapor pressure: Not applicable · Density at 20°C (68 °F): 1.8 g/cm³ (15.021 lbs/gal) · Vapour density Not applicable · Solubility in / Miscibility with Water: Insoluble. · Segregation coefficient (n-octonol/water): Not applicable

· Other information

No further relevant information available.

10 Stability and reactivity

· Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: Carbon monoxide and carbon dioxide

11 Toxicological information

- · Acute toxicity:
- · Primary irritant effect:
- · on the skin: No irritant effect.
- on the eye: No irritating effect.
- · Sensitization: No sensitizing effects known.

12 Ecological information

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Additional ecological information:
- · General notes:
- Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

13 Disposal considerations

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- · Recommendation: Disposal must be made according to official regulations.

UN-Number	Not applicable	
UN proper shipping name ADR	Not applicable Void	
Transport hazard class(es)	Not applicable	
Packing group	Not applicable	
Environmental hazards: Marine pollutant:	No	
Special precautions for user	Not applicable.
