Cements & Liners

CEMENTS & LINERS

TEMPORARY CEMENTS

Zone Temporary Cement Dux Dental (Cadco)

A zinc oxide, non-eugenol temporary cement. The patented syringe ensures even amounts of base and catalyst while eliminating mess, waste & clean-up.

- 15 gm. Syringe Regular Shade **45-27043** A1 Shade **45-27045** \$41.99
 - Standard Tube Package **45-27040** \$43.99
- Contains: 20 gm. base, 30 gm. catalyst, mixing pad

DESENSITIZERS

Alpha-Ease Hema/ Gluteraldehyde Desensitizer DTI

This product received a 4 1/4 rating from The Dental Advisor (maximum rating is a 5).

- 7 mL bottle (408-0101-002) **37-148** \$35.99

Dentin Desensitizer Pulpdent Corp.

For cervical sensitivity. Apply before temporary or permanent cementation.

- 12 mL **71-DES** \$44.99

Gluma Comfort Bond & Desensitizer Heraeus

- 4 mL bottle **37-140** \$116.99
- (3) 4 mL bottles **37-139** \$304.99
- Single Dose, 40/box **37-138** \$104.99

Gluma Desensitizer Heraeus

- Gluma Desensitizer, 5 mL **37-141** \$118.99
- (3) 5mL Bottles **37-143** \$308.99
- Single Dose (40) .075 mL **37-131** \$81.99

Hema Prime-Dent

Contains hema & benzalkonium chloride. Fast, effective way of sealing dentinal tubules. Can be used for cervical sensitivity, root planing & scaling.

- 7 mL **71-145** \$25.99

Hemaseal & Cide Desensitizer with 4% Chlorhexidine Advantage Dental Products

Aqueous solution of HEMA and chlorhexidine. Use as a desensitizer and as a wetting agent before composite bonding procedures and cementations.

- 10 mL bottle **71-0170** \$91.99
- Unidose, 0.1 mL btl., 50/pkg. **71-0180** \$66.99

HurriSeal Beutlich

Dentin desensitizer suitable for over 100 applications.

- 12 mL **71-9782** \$44.99

Isodan Topical Desensitizing Gel Septodont

Used to treat dental hypersensitivity (such as cold/heat, contact). Easy to use formula can be applied prior to restoration procedures.

- 5 mL btl., 20 Microbrushes **71-0100** \$37.99

Micro Prime Danville Engineering Inc.

Contains benzethonium chloride & HEMA to kill bacteria. Helps to seal tubules. Sodium fluoride added.

- 10 mL **71-7001** \$52.99

Cements & Liners

Protect™ Desensitizing Solution Sunstar Butler

Immediately effective - triple action technology creates thick, deep tubule occlusion. Precipitates calcium and protein in tubules. Colorless - will not affect fluoride or whitening treatments. Does not alter tooth color. Longer lasting - clinically proven to last up to 6 months. Simple, 1-step application.

45 Applications **71-1255P** \$59.99

Topex® White Care™ Post Whitening Desensitizer Sultan Dental

1.1% neutral sodium fluoride gel with no color additives. Ideal for treating hypersensitivity after whitening procedures and for patients intolerant of colors/dyes. Can be used in place of your regular toothpaste. Contains xylitol. Raspberry flavor.

2 oz. Tubes, 12/box **71-30221** \$71.99

VitalMin™ Tooth Root Desensitizer Sultan Healthcare

Used in office for the relief post scaling and post surgical sensitivity below the gum line. It desensitizes by instantly occluding tubules and remineralizes to prevent further demineralization on exposed dentin and tooth root. It is a single-use, syringe applied 2 minute application. Each kit contains 2 single quadrant treatments.

Kit (2 pack) **37-30225** \$69.99

Zarosen Desensitizer Cetylite Industries, Inc.

May be used as a cavity varnish and tubule seal. Only product that contains strontium chloride. No thinner/solvent needed.

14 gm. **71-0800** \$29.99

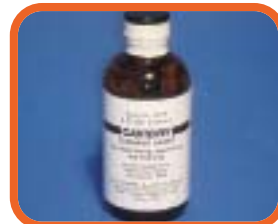

SOLVENTS

Cavidry Parkell

⚠ Hazardous Material

Cavity drying agent. Dries & degreases tooth preps.

4 oz. (S099) **71-5099** \$14.99

Citrisol Orange Solvent Towelettes Palmero Sales

Pop-up wipes for removing impression materials, adhesives & grease from hands, face, & instruments.

160/canister **71-069** 1-3 \$20.99
